WEATHER OF CONCERN

Weather of Concern

Northern California

- Low temperatures in the mid 30s resulting in a frost advisory for Northwestern/Northeastern Mendocino interior areas starting Sunday morning.

Southern California

- The threat for shower and thunderstorm activity will continue into Monday as a trough of low pressure will slowly drift across California.

Active Weather Warnings, Watches and Advisories by County:

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

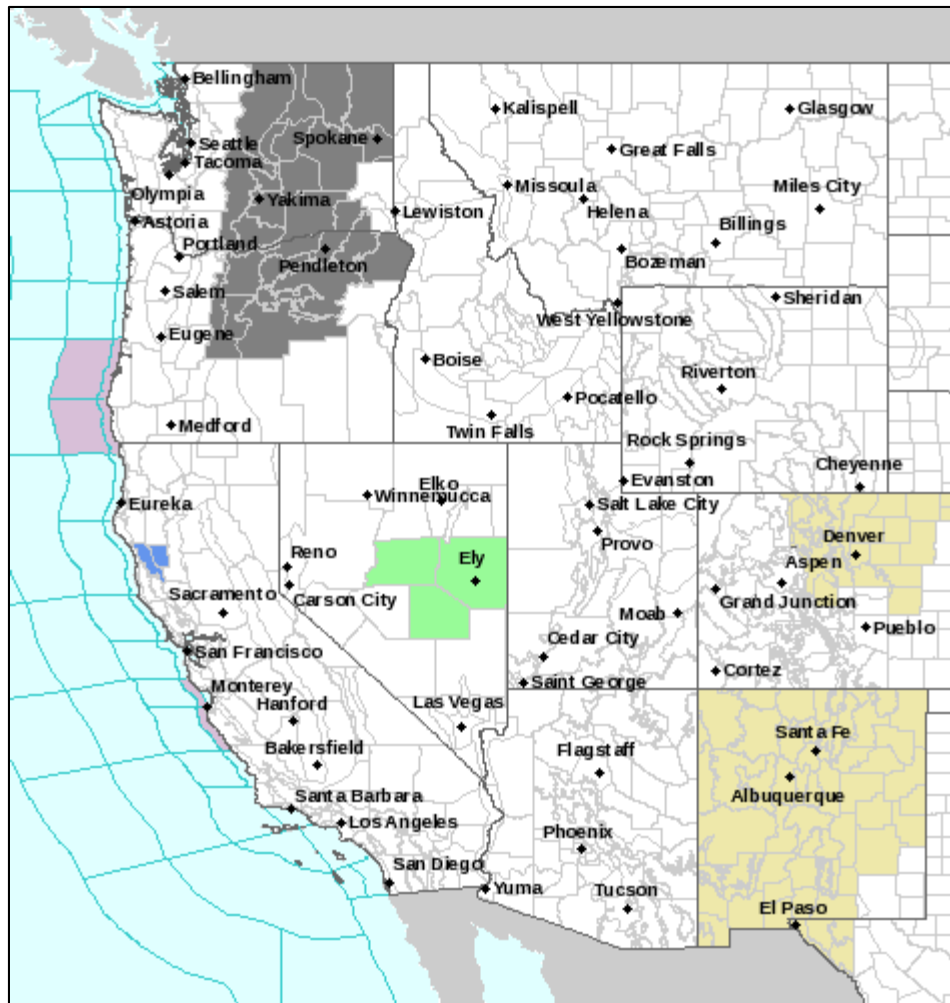

- Very Low Daytime Relative Humidity (RH) and Poor Nighttime RH Recovery into Early Monday
- High pressure will produce warm and very dry conditions into Monday.
- Daytime minimum RH 10-20% inland areas and mid and upper slopes near the coast. Overnight RH recovery to 20-40% on mid and upper slopes. Increasing RH Monday.
- Afternoon max temperatures 7-10 degrees above normal today and Monday, then closer to normal Tuesday through Friday.
- N-NE/Offshore gusts to 15-25 mph during nights and mornings on the mid and upper slopes from the western Cascade-Sierra slopes to the coast through early Monday.
- Onshore flow pattern starting Monday will lead to higher humidity, cooler temperatures, better smoke dispersion for burn projects, and a deeper marine layer that moves farther inland each night.
- A slight chance of light rain showers far NW CA Tuesday night and Wednesday, spreading as far south as a Santa Rosa-Red Bluff-Quincy line Wednesday night through Friday.
- Warmer and drier next weekend with more N-NE/Offshore winds possible.

SOUTHERN CALIFORNIA

- A weak area of low pressure off the California Coast will move inland Sunday and Monday. The low-pressure area will move off to the east Tuesday. High pressure from the southwest will build into California Wednesday through the end of next week.
- Isolated to scattered showers and thunderstorms will form over the mountains and deserts this afternoon through Monday afternoon.
- Most locations will receive little or no rainfall, but some locations over the Sierra Crest and near the Nevada Border can receive up to an inch of rainfall through Monday afternoon.
- Temperatures will cool to near normal and minimum humidity will rise to above 20% today through Tuesday.
- A slow warming and drying trend will occur Wednesday through the end of next week.
- Winds will be light through the end of next week.
